

Our Mission:

Empowering people to discover their directions for life in a changing world

Lead Nurse

Southeastern Directions for Life has an opening for a full-time Lead Nurse at our 5th Street location. Hours for this position are Monday-Friday with an on call rotation.

Job Summary: This member of the multidisciplinary team is responsible for supervising the CSS Nursing staff under the supervision of the Director of Nursing, with the nursing and medical services; conducting psycho-social assessments; assessing physical health needs; making appropriate referrals to community physicians; providing management and administration of medication in conjunction with the provider; providing a range of treatment, rehabilitation, and support services; and case management. Participate as an active and positive member of the Team and provide education and support to other staff as needed and within limits of expertise. Flexibility required in emergencies and inclement weather.

Qualifications: An RN, at least 1 year of experience working with severe mentally ill (SMI) adults and other mental health professionals preferred. Must have a strong commitment to the right and ability of each person with a severe mental illness to live in normal community residences; work in market jobs; and have access to helpful, adequate, competent, and continuous supports and services. Skills and competence to establish supportive trusting relationships with persons with severe mental illness and respect for client's rights and personal preferences in treatment are essential. Must have a valid driver's license, and good driving record acceptable to Southeastern's Insurance provider.

Candidate must have a strong commitment to the right and ability of each person with a severe mental illness and enable access to helpful, adequate, competent and continuous supports and services. Skills and competence to establish supportive, trusting relationships with persons with severe mental illness and respect for client's rights and personal preferences in treatment are essential.

Drug screening required.
